EDUCATION

Bachelor of Engineering | I.T.
Dr. D.Y.Patil Institite of Technology
2022-2026

Higher Secondary School | I.T.
Pratibha Junior College
2020-2022

Secondary School
St. Andrews High School
2010-2020

ACCOMPLISHMENTS

- Achieved **7th** position in College Level Technical Competition.
- Sr. **Technical Lead** at ITSA (Information Technology Student Association)
- **Leetcode Contest Rating-1622, top-20%ile, , Solved 400+ Questions** and received **10+ badges.**
- **2 Star @ CodeChef.** Max Rating (1425)

CERTIFICATIONS

- Java Programming Fundamentals @ Infosys Springboard
- Smart Devices & Mobile Emerging Technologies @ Yonsei University
- Google GenAI for Beginners

LANGUAGES

- English
- Marathi
- Hindi

ABOUT ME

Highly motivated third-year Information Technology student with expertise in full-stack development, competitive programming, and emerging technologies. Experienced in building scalable applications using MERN stack and implementing deep learning architectures. Passionate about solving complex problems and continuously enhancing technical skills

TECHNICAL SKILLS

- Programming Languages: **JAVA**, C++, C, JavaScript , TypeScript , Python, Rust, SQL .
- Technologies Known and Experience: **NodeJS**, **ExpressJS**, **ReactJS**, **TailWindCSS**, **NextJS**, **Git**, **Github**, **MongoDB**, **JWT**, **Redis**, **PassportJS**, **ContextAPI**, MySQL, Django, Actix, Docker, EJS.
- **DeepLearning** Architecture, **CNN**, ANN, ResNet50 and VGG-16.
- Competitive Programming : **Leetcode** rating-1622, top-20%ile, **CodeChef** 2 Star (max 1425).
- Full Stack Development: **MERN**
- Developing RESTful APIs.
- Experienced in Agile Methodologies and Design Patterns.

EXPERIENCE

● **Full Stack Developer Intern | Creatosaruos.io**
AUG 2024 - DEC 2024

Developing applications in React and Express. Developed app to deeplinker a url increasing interaction with users by 20+%. Developed API Integrations and Authentication with 3rd Party OAuth Providers. Efficient State Management in react and Backend Designing. Google Cloud Platform.

PROJECTS

○ **DeepLinker**

Developed a Product which provides Deep Links for famous applications. Deep Linking Allows a link to be opened directly in app increasing retentionship and engagement and allows for more security. Tech Stack used was Express to create RESTful APIs and interface using Server Side Rendered Pages.

○ **ShortURL**

Developed ShortURL, a URL shortening service using Next.js for frontend and backend. Enhanced performance with Redis caching and utilized MongoDB for efficient URL storage. Created responsive interfaces with Next.js and styled with CSS for visual appeal.solution for managing and retrieving data swiftly.

○ **Efficient Edge**

Developed a productivity website using the MERN Stack. Created an efficient backend with Node.js and Express.js, modeled databases with Mongoose, and implemented secure authentication with JWT. Built a dynamic frontend using React and various hooks, styled with CSS for a responsive design, and managed data effectively with MongoDB.
